## Why Work With Us

At Eliminate Chaos, we are organizing and productivity experts who believe that collaboration is as important as knowledge when it comes to meaningful results. We serve as your trusted partners—listening to your needs, learning about your goals, and creating customized solutions to achieve them.

Our clients want to boost efficiency and reduce frustration. Many are simply looking to improve their everyday lives by having spaces that both look and feel better. Others seek a more thoughtful approach to the logistics of moving a household or office—from packing and unpacking to project management, vendor coordination, and space planning. And some just long for the day when they can fit their car into the garage again.

Thanks to the proven 10-step process developed and refined over decades by our founder, Laura Leist, any of those goals are within your reach. And *staying* organized is, too, because all of our powerful solutions and systems are designed to be easily maintained well into the future.
